SUPPORTING THE SENSES

“Designed around you for greater comfort and intuitive control.”

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

COMFORT IN COMMAND

Your driving position shapes every drive. Mazda is designed around you, with a natural seating position and pedals placed where your foot naturally rests for effortless control. The result is a relaxed, comfortable drive with minimal effort.

HUMAN-MACHINE INTERFACE (HMI)

Mazda's human-centric HMI keeps important information clear and within easy reach, helping you stay focused on the road. Driving information appears in the Active Driving Display and meter cluster, while entertainment and convenience features are accessed through the 8.8-inch centre display.

MOTION INSPIRED BY YOU

“Feel more connected with elevated comfort for a truly refined driving experience.”

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

G-VECTURING CONTROL PLUS (GVC PLUS)

GVC Plus is one more way Mazda's human-centric engineering makes vehicle movement more responsive, more confidence-inspiring and just more comfortable. As you enter a bend, GVC Plus momentarily lowers engine torque to transfer weight to the front wheels and enhance grip. Then as you go through the curve, engine torque is restored to shift weight rearwards for greater stability. Finally, as you exit the bend brake force is slightly applied to the outer wheels to help recover straight-line running. This seamless, behind-the-scenes control greatly reduces the need for mid-bend steering corrections, smoothes the effect of G forces to reduce body sway, and lowers stress and fatigue on long drives.
