

MAZDA CX-3

We believe in the power of human potential;
creativity, imagination and the amazing things
we're all capable of when we're inspired.

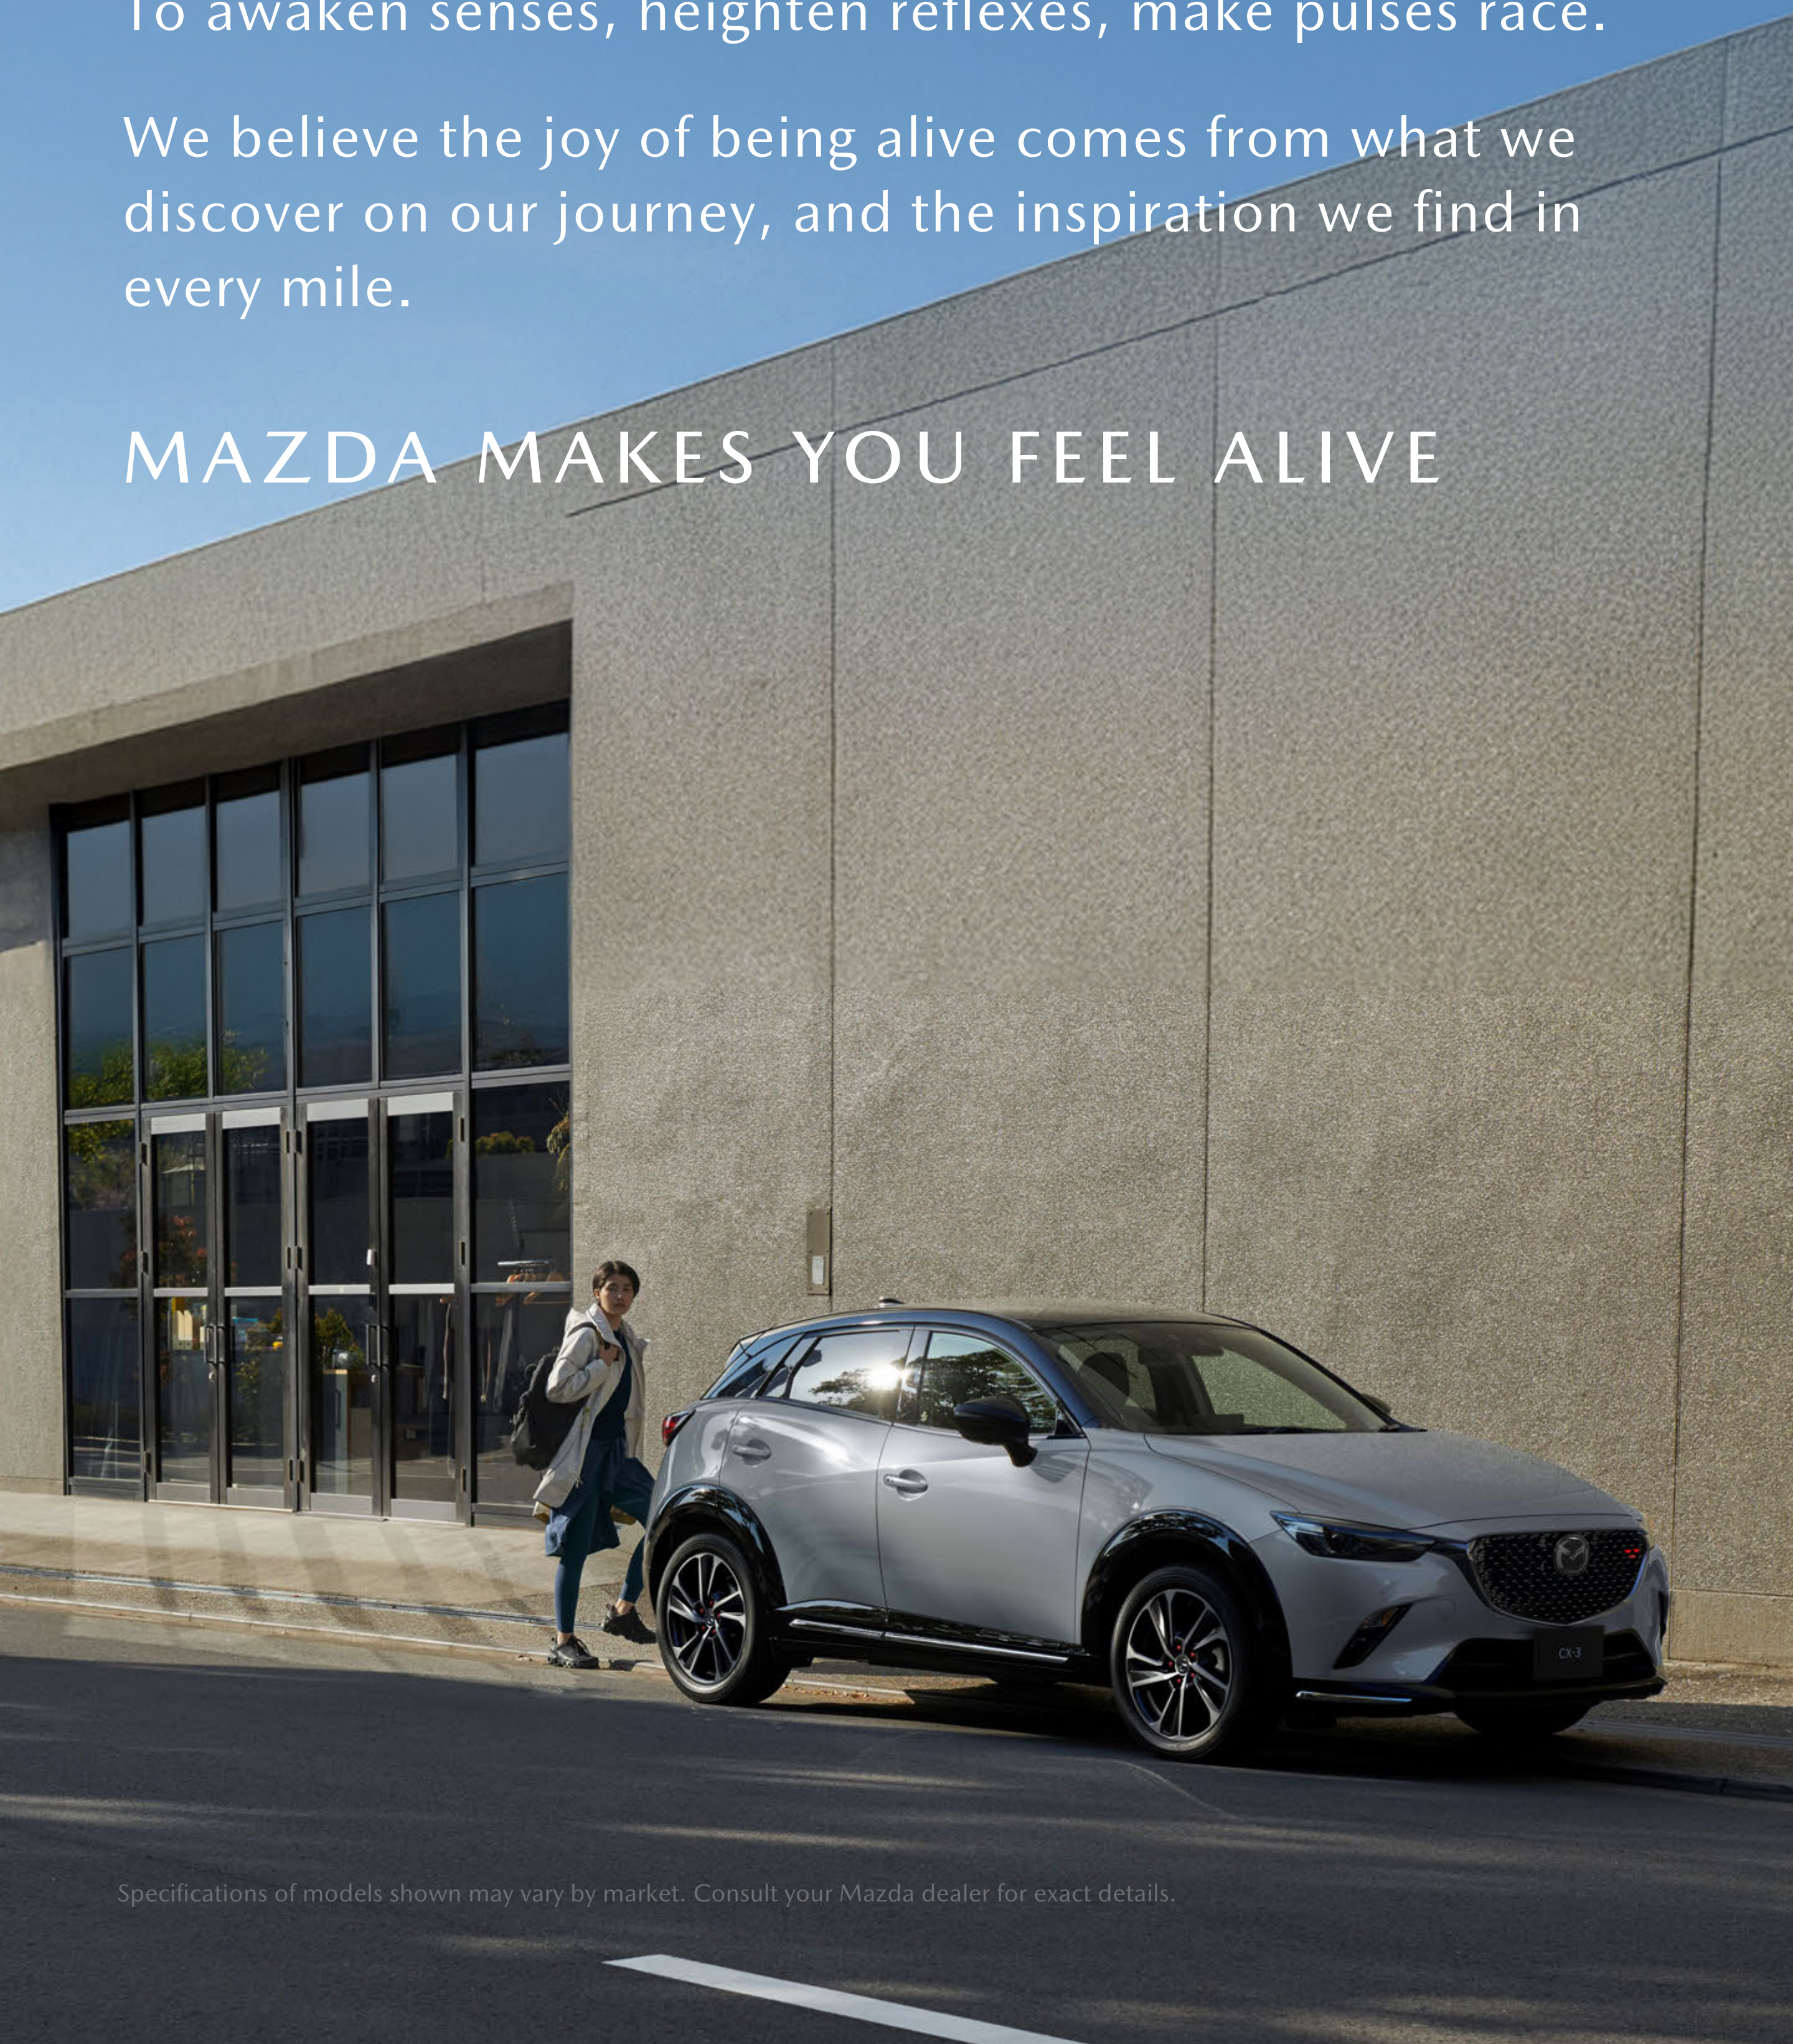

We believe in taking the unconventional road
and going the extra mile to do work that inspires.

We believe in artisans, designers, engineers and
ambassadors who pour human energy into their work.

We believe in the power of cars to move human emotions.
To awaken senses, heighten reflexes, make pulses race.

We believe the joy of being alive comes from what we
discover on our journey, and the inspiration we find in
every mile.

MAZDA MAKES YOU FEEL ALIVE

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

DIGNITY EMOTIONALLY EXPRESSED

Bursting with the vitality of a free-spirited being, the exquisite Mazda CX-3 is more compelling than ever.

Mazda's Kodo — Soul of Motion design language endows it with new aesthetics, dignity and tension.

A renewed focus on traditional Japanese design stripped away embellishment to reveal a beautifully honed form that inspires observers and strengthens the bond between car and owner.

In Mazda CX-3, we take beauty and radical edginess to new heights that resonate with those seeking a vibrant life.

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

HUMAN-CENTRIC ENGINEERING: THE KEY TO SATISFACTION

*“Creating a sense of harmony that turns every journey
into a natural extension of yourself.”*

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

G-VECTURING CONTROL (GVC)

At Mazda, smooth transitions between braking, turning, and accelerating are key to the Jinba-ittai driving experience, where the car feels like part of the driver. This seamless coordination boosts control and confidence. G-Vectoring Control (GVC) enhances this by using the engine to subtly improve chassis performance. Based on Mazda's human-centered design, GVC smooths out G-force shifts, making every drive feel more natural, stable, and responsive.

GVC adjusts engine torque to make steering feel smoother and more natural. By shifting weight between the front and rear wheels, it improves grip, stability, and precision while keeping the ride comfortable. It works across various conditions, from daily driving to emergency maneuvers, and helps reduce steering corrections so the driver stays in control with less effort. The result is a more stable and enjoyable drive for everyone.

HUMAN-CENTRIC DESIGN: THE KEY TO COMMUNICATION

*“Feel more connected with elevated comfort for
a truly refined driving experience”*

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

HUMAN-MACHINE INTERFACE (HMI)

Designed to keep you focused and comfortable by placing all controls, displays, and pedals naturally around the driver. Key driving info appears on a head-up display just below your line of sight, so you stay informed without looking away from the road. An 8-inch centre display handles entertainment, working as a touchscreen when the car is stationary. While driving, you use a rotary commander with shortcut buttons for easy control without needing to look, reducing distraction and keeping your posture steady.

MAZDA CONNECT

Mazda Connect keeps you connected on the road, offering a wide range of infotainment through your smartphone. You can access AM/FM radio, internet radio, streaming services, mobile audio, and make hands-free calls using voice commands.

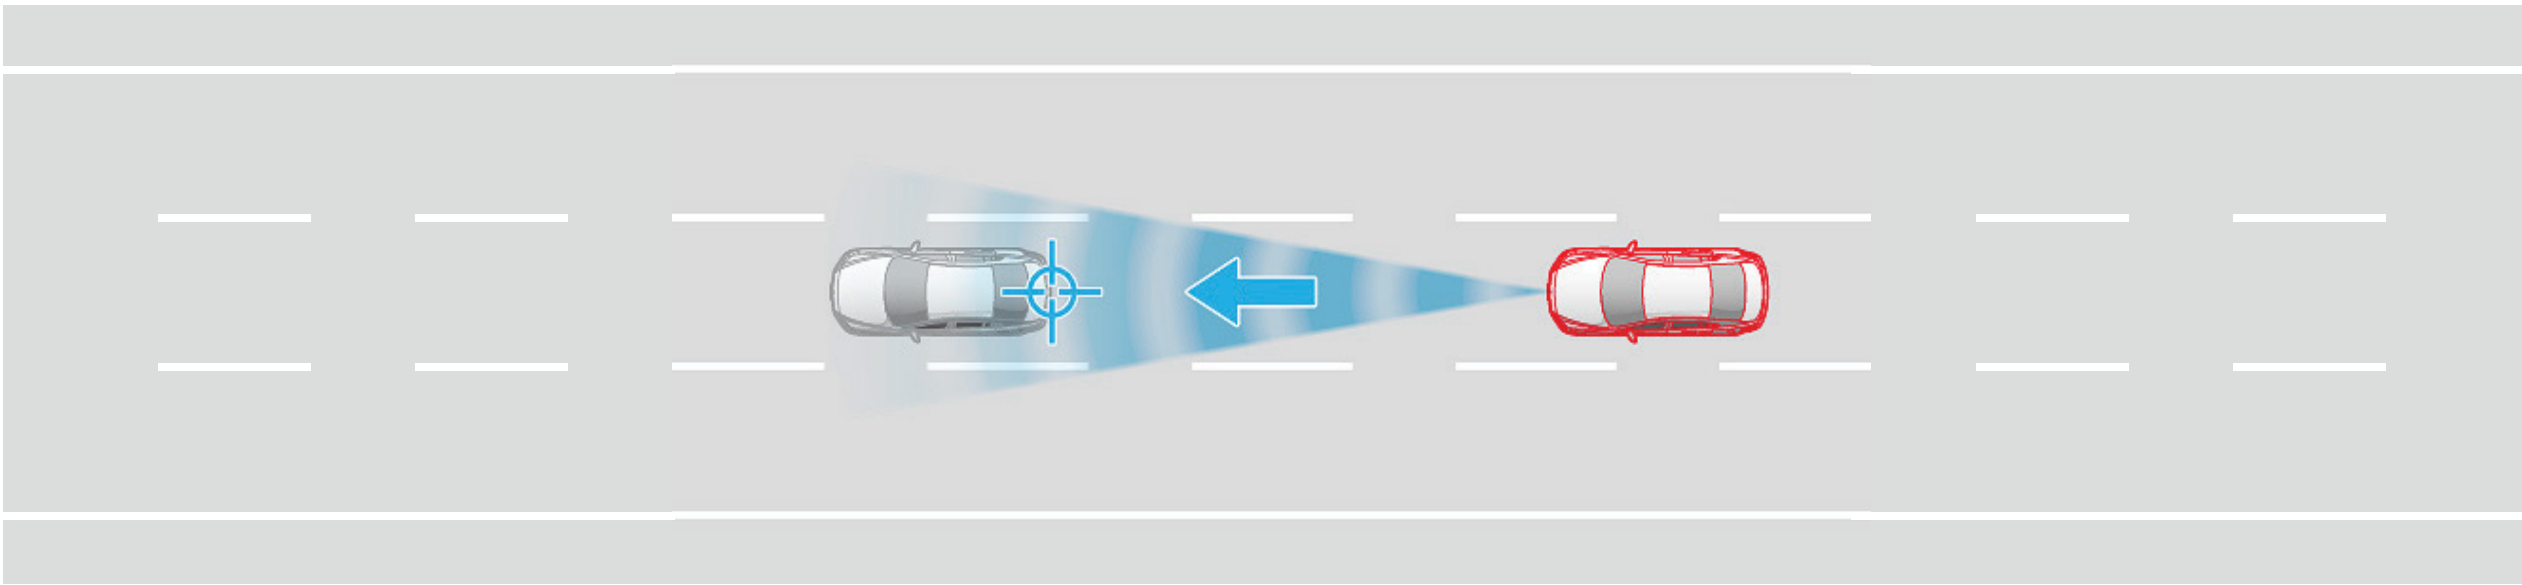

HUMAN-CENTRIC INNOVATION: THE KEY TO SAFER, MORE SECURED DRIVING

*“Safe decisions and timely actions lead to peace of mind,
no matter the road ahead.”*

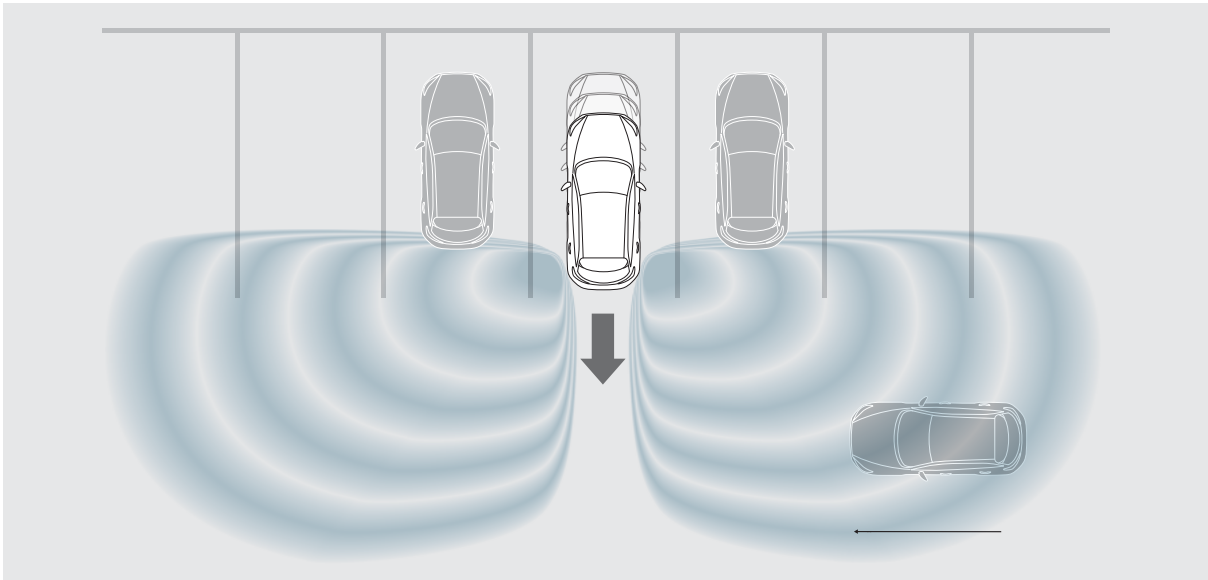

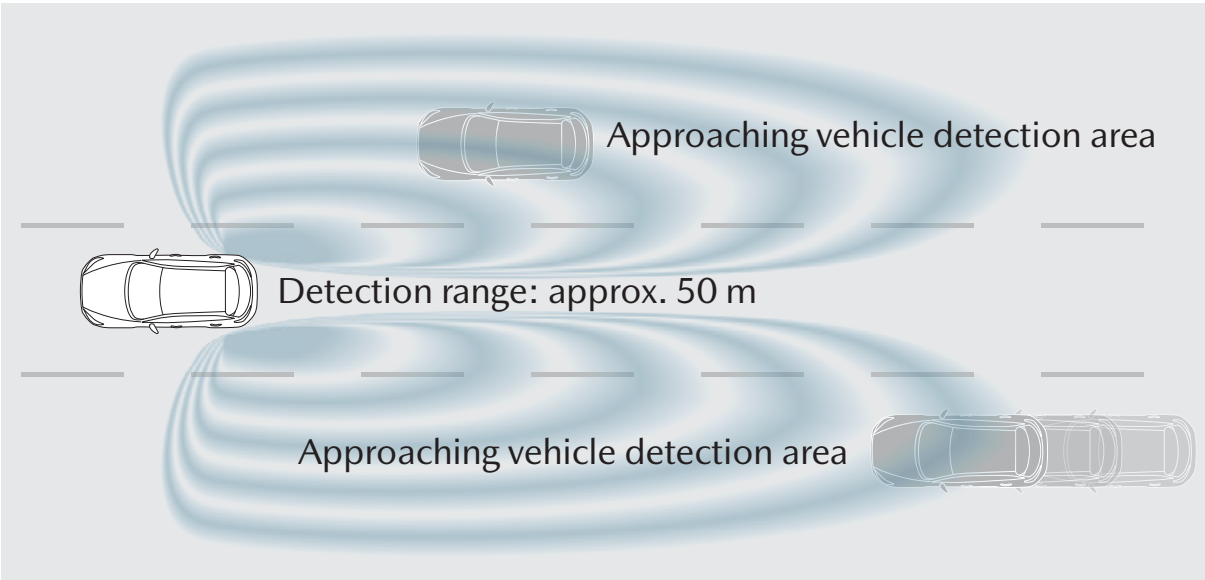

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

i-ACTIVSENSE

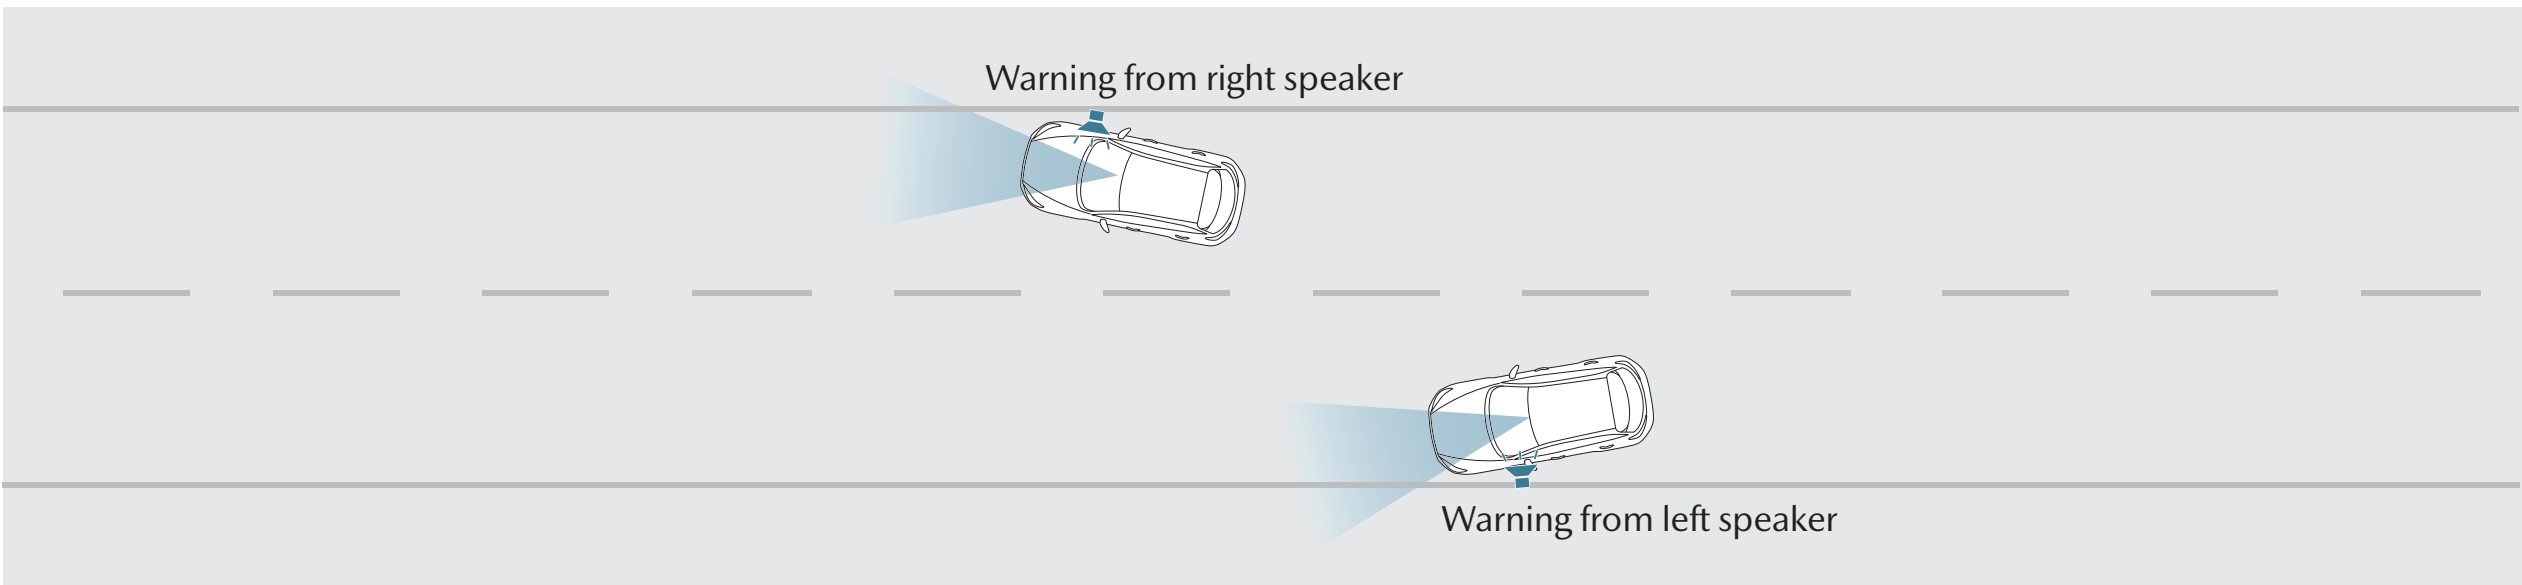

MAZDA RADAR CRUISE CONTROL (MRCC)

Mazda Radar Cruise Control (MRCC) uses a millimeter wave radar to judge the relative speed and distance to the car ahead and automatically controls vehicle speed. Working within a set speed range, MRCC automatically adjusts and maintains a safe following distance from the car in front, thus relieving some of the burden of the driver on long drives and on highways.

BLIND SPOT MONITORING (BSM) AND REAR CROSS TRAFFIC ALERT (RCTA)

BSM uses 24 GHz quasi-milliwave radar sensors to help detect vehicles in the blind spots behind and to the side: using a turn signal while BSM detects a vehicle triggers visual and audio warnings. RCTA uses the same sensors to alert the driver when it detects vehicles approaching from either side when reversing.

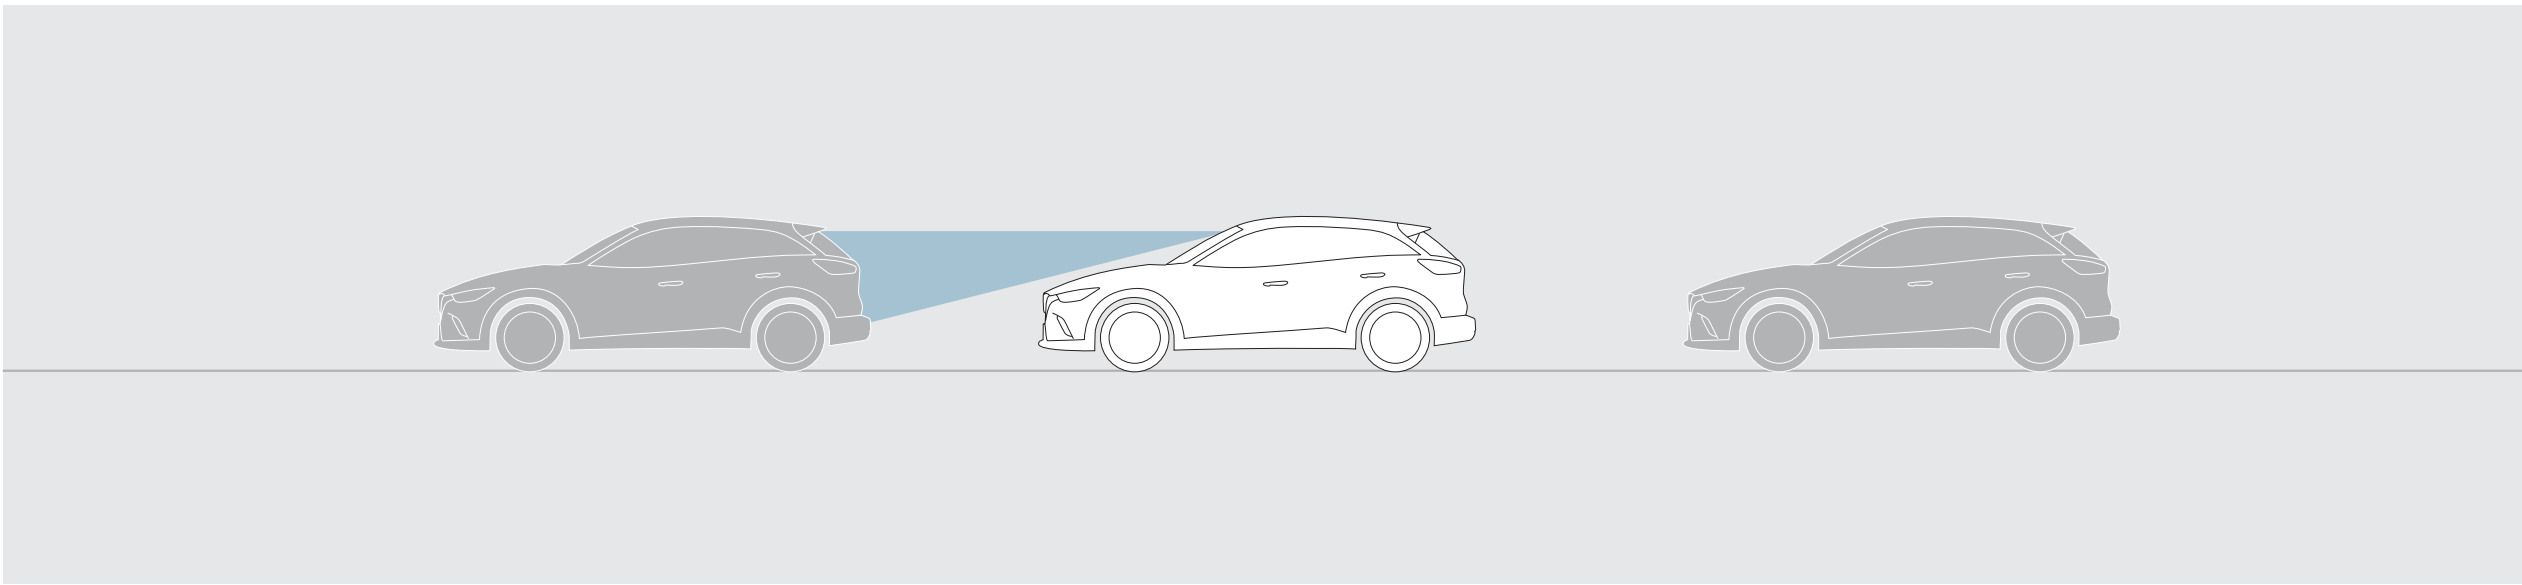

LANE DEPARTURE WARNING SYSTEM (LDWS)

LDWS senses lane markings on the road surface. When the system predicts departure from the lane it issues an audible warning similar to the noise a car makes when it runs onto a rumble strip to prompt timely steering corrections. The system assesses driver inputs such as the turn signals to weed out false alarms.

Note: i-Activsense supports safe driving, but it has limitations and doesn't replace the need for careful attention. The availability of safety features and equipment may vary by market. Consult your Mazda dealer for exact details.

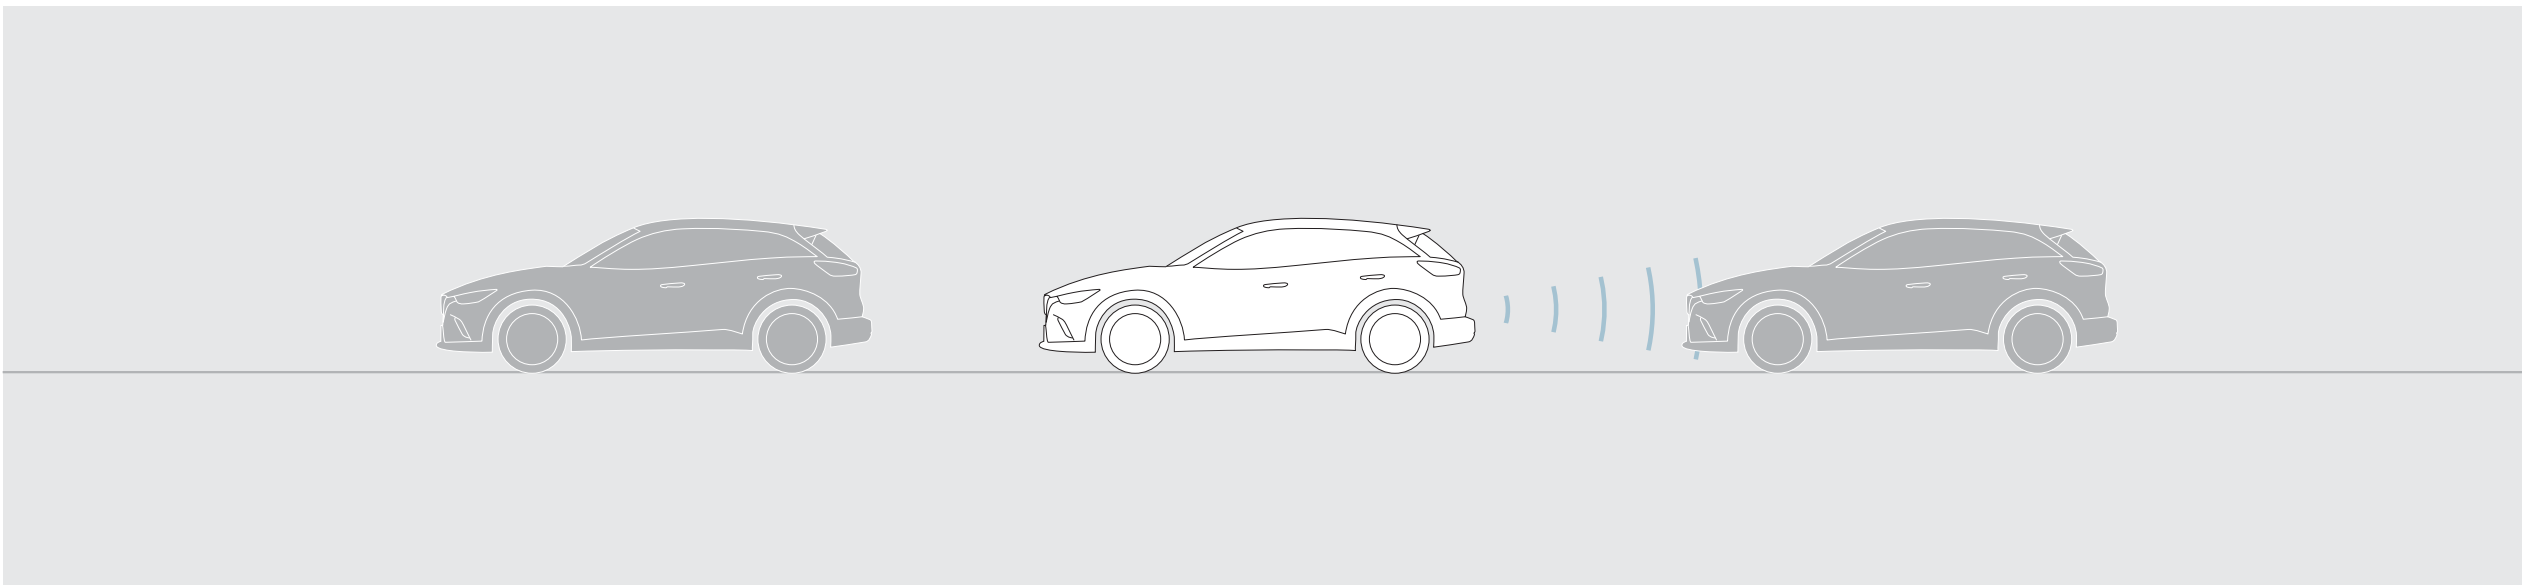

i-ACTIVSENSE

ADVANCED SMART CITY BRAKE SUPPORT (ADVANCED SCBS) WITH NIGHT-TIME PEDESTRIAN DETECTION FUNCTION

With its high-performance forward sensing camera, Advanced SCBS detects vehicles and pedestrians* in front of the vehicle and automatically applies the brakes to help avoid collisions and mitigate collision damage. The system detects vehicles at speeds between approximately 4 and 80 km/h and pedestrians at about 10 to 80 km/h, and is upgraded to detect pedestrians at night and operate effectively in a wider range of conditions.

*Detection of pedestrians and consequent automatic braking are not available in certain countries and regions.

SMART CITY BRAKE SUPPORT [REVERSE] (SCBS R)

Ultrasonic sensors mounted on the rear bumper allow SCBS R to detect vehicles and obstacles behind when reversing at speeds between approximately 2 and 8 km/h. If an object is detected, the system automatically applies the brakes to help mitigate collision damage.

Note: i-Activsense supports safe driving, but it has limitations and doesn't replace the need for careful attention. The availability of safety features and equipment may vary by market. Consult your Mazda dealer for exact details.

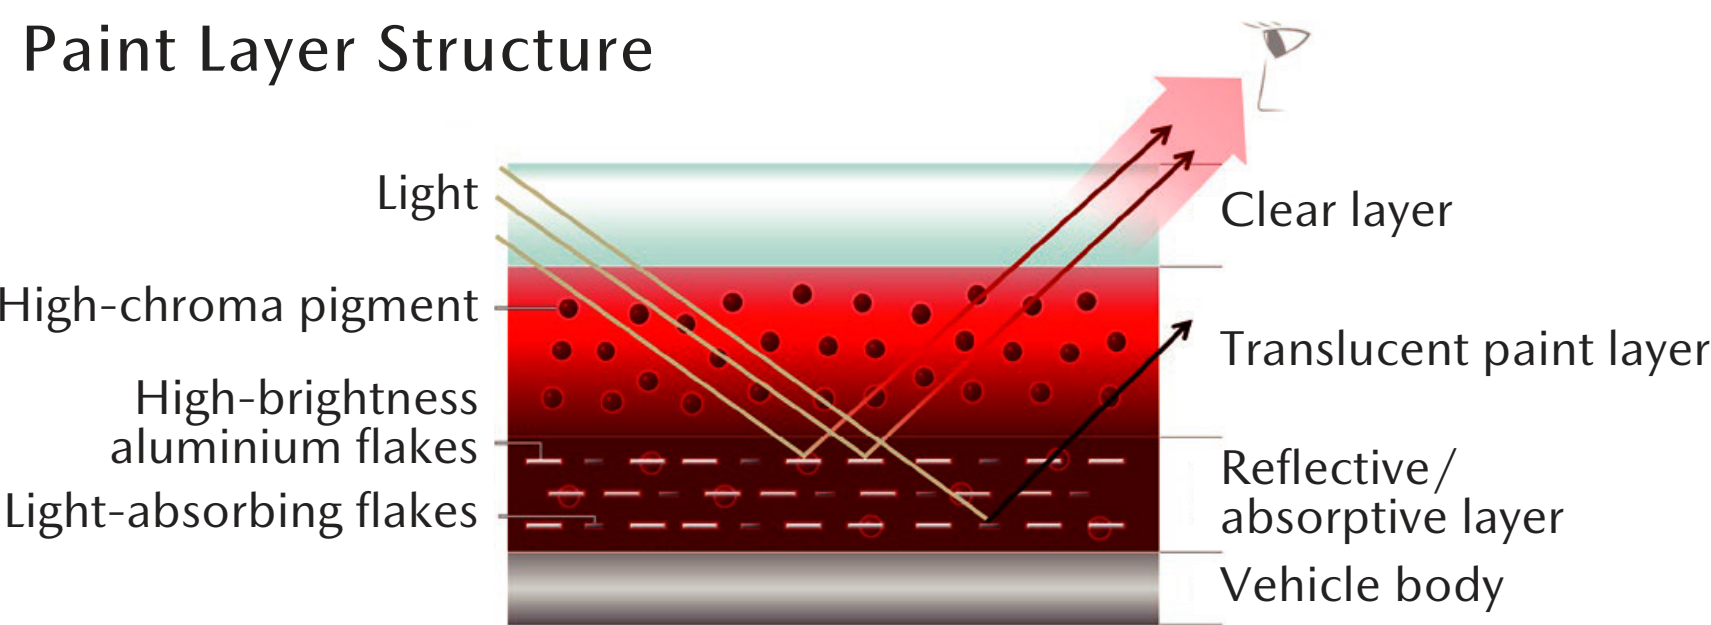

BODY COLOURS & SEAT MATERIALS

“Where precision meets artistry.”

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

BODY COLOURS

Paint Layer Structure

TAKUMI-NURI

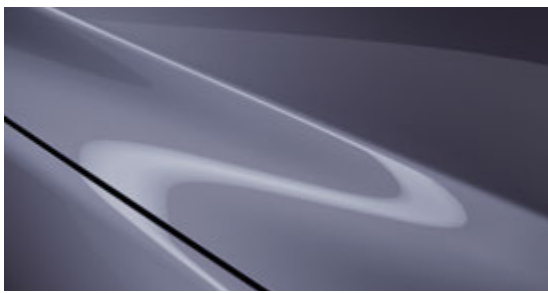

Mazda’s unique painting technology Takumi-nuri (takumi: artisan, nuri: painting), with its unprecedented combination of colour, highlights, shade, and depth, further emphasizes the sheer beauty and quality of the dynamic body shape.

Soul Red Crystal Metallic
(46V)*

Machine Grey Metallic
(46G)

Polymetal Grey Metallic
(47C)*

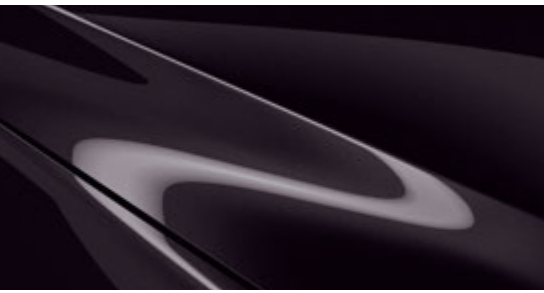

Aero Grey Metallic
(52C)*

Platinum Quartz Metallic
(47S)*

Snowflake White Pearl
Mica (25D)

Jet Black Mica
(41W)

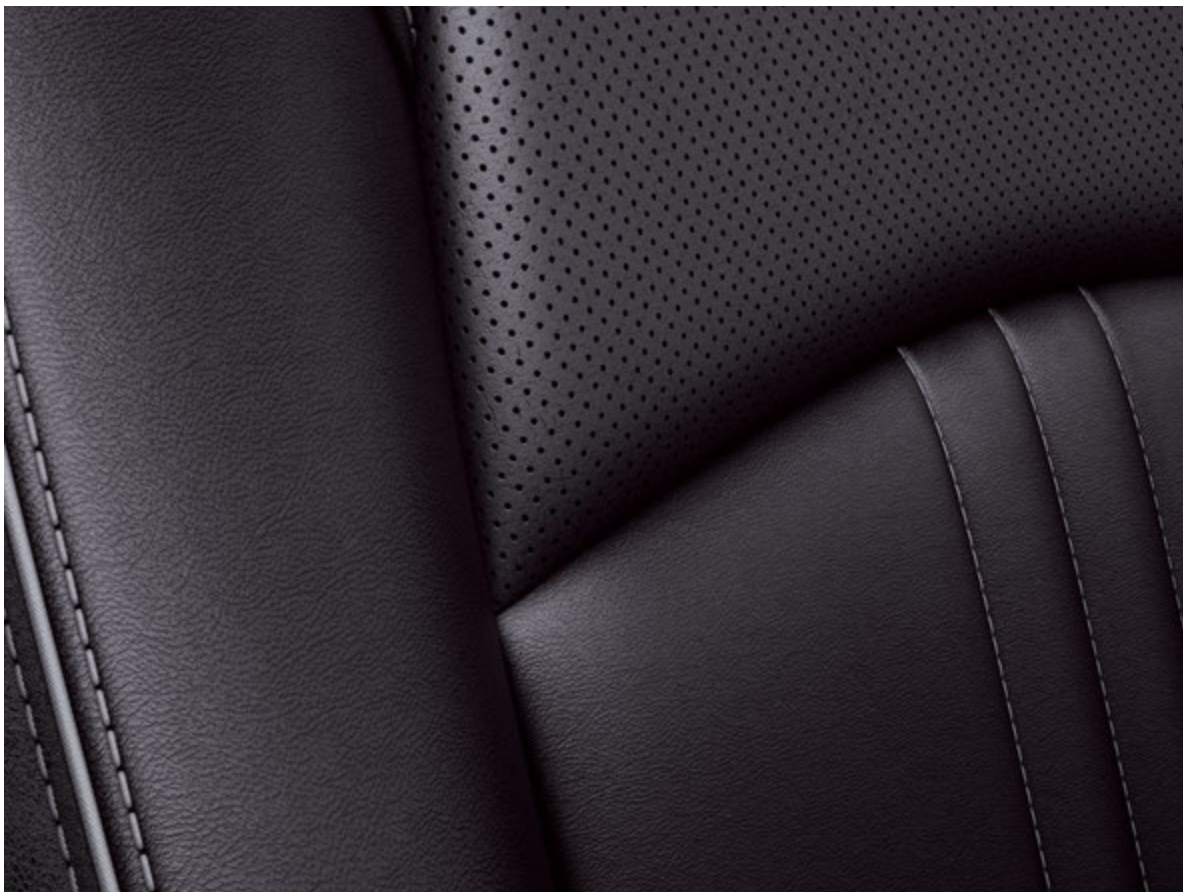

*These body colours are also available as their two-tone paint variant, each matched with Black. (2.0 Pro AutoExe Grade Only)

We believe that a vehicle has something more than just a mode of transportation or a lump of metal. Therefore, we continuously push ourselves in developing SKYACTIV's superior technology and KODO design to achieve this. This is marked by the essence of being one with the car typical of Mazda's Jinba-Ittai.

MYMAZDA WARRANTY & MYMAZDA SERVICE

- Increase driving confidence.
- All Mazda models come with a 5 years or 150,000 km vehicle warranty, whichever comes first, starting from the date of car delivery.
- Mazda ICE models come with a 3 years or 60,000 km service and spare parts package, whichever comes first, starting from the date of car delivery.
- Guarantee of Mazda genuine parts.
- The Emergency Road Assistance (ERA) coverage in the JABODETABEK area is limited to 30 km from the incident location to the nearest authorized dealer. Any assistance required beyond this distance will incur additional costs, which will be the responsibility of the customer.
- The Mazda Owners Club (MOC) card offers special programs hosted by PT Eurokars Motor Indonesia.
