

MAZDA MX-5

We believe in the power of human potential;
creativity, imagination and the amazing things
we're all capable of when we're inspired.

We believe in taking the unconventional road
and going the extra mile to do work that inspires.

We believe in artisans, designers, engineers and
ambassadors who pour human energy into their work.

We believe in the power of cars to move human emotions.
To awaken senses, heighten reflexes, make pulses race.

We believe the joy of being alive comes from what we
discover on our journey, and the inspiration we find in
every mile.

MAZDA MAKES YOU FEEL ALIVE

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

THE OPEN AIR, THE MAZDA WAY

One shining inspiration runs throughout the whole of Mazda MX-5's long and storied history: the purest expression of the lightweight, open-top sports car's fun-to-drive character. And the latest models bring that unmatched pleasure to an even wider range of drivers, stimulating hidden emotions and awakening dormant sensibilities. In particular, Mazda's trademark Jinba-ittai handling is assured by Skyactiv Technology which continues to set the pace in automotive engineering. Technically, aesthetically, emotionally — Mazda MX-5 and MX-5 RF* are a tour de force like no other car on the road, offering a truly unforgettable experience. An experience you owe it to yourself to discover.

*RF stands for "Retractable Fastback".

THE REDEFINITION OF DRIVING PLEASURE

*“Where every movement responds
as naturally as you do.”*

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

REFINING THE CLASSIC SPORTS CAR

The fourth-generation Mazda MX-5 stays true to the classic lightweight sports car formula, with a compact, open-top two-seater body, Front-midship engine/Rear-wheel drive (FR) layout, and near-perfect 50:50 weight distribution. A rearward-positioned engine, lightweight aluminum panels, and a lower centre of gravity make the car more agile and responsive. A driver-focused cockpit, wide visibility, and lightweight S-fit Structure seats further enhance comfort, support, and confidence through the curves.

SAVING WEIGHT, ADDING PERFORMANCE

Mazda's SKYACTIV Technology and proven "Gram Strategy" enabled significant weight reduction through compact components, structural innovations, and greater use of lightweight materials. At the same time, a continuous body framework, optimized structure, high-tensile steel, and integrated chassis and body increased rigidity, resulting in a lighter yet stronger MX-5 with enhanced performance and handling. For the MX-5 RF, a dedicated tunnel member helps maintain the ideal balance of front and rear rigidity despite its retractable hardtop.

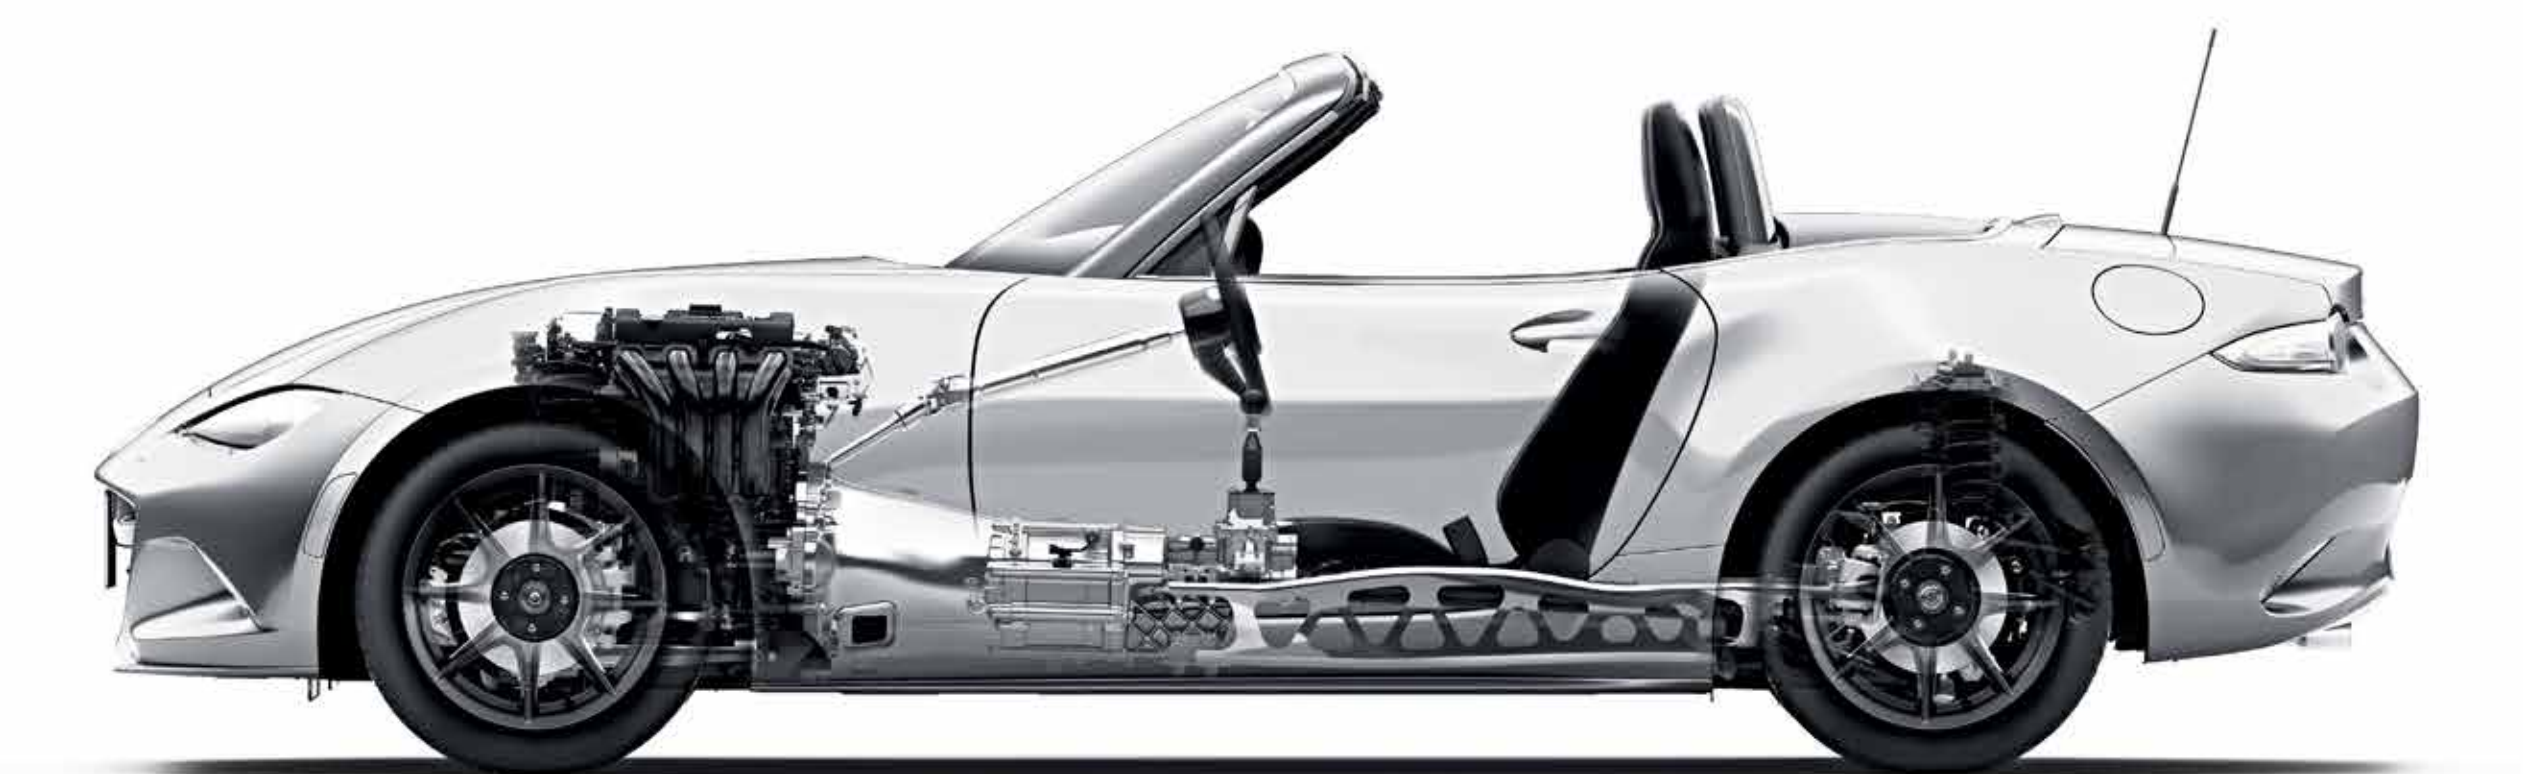

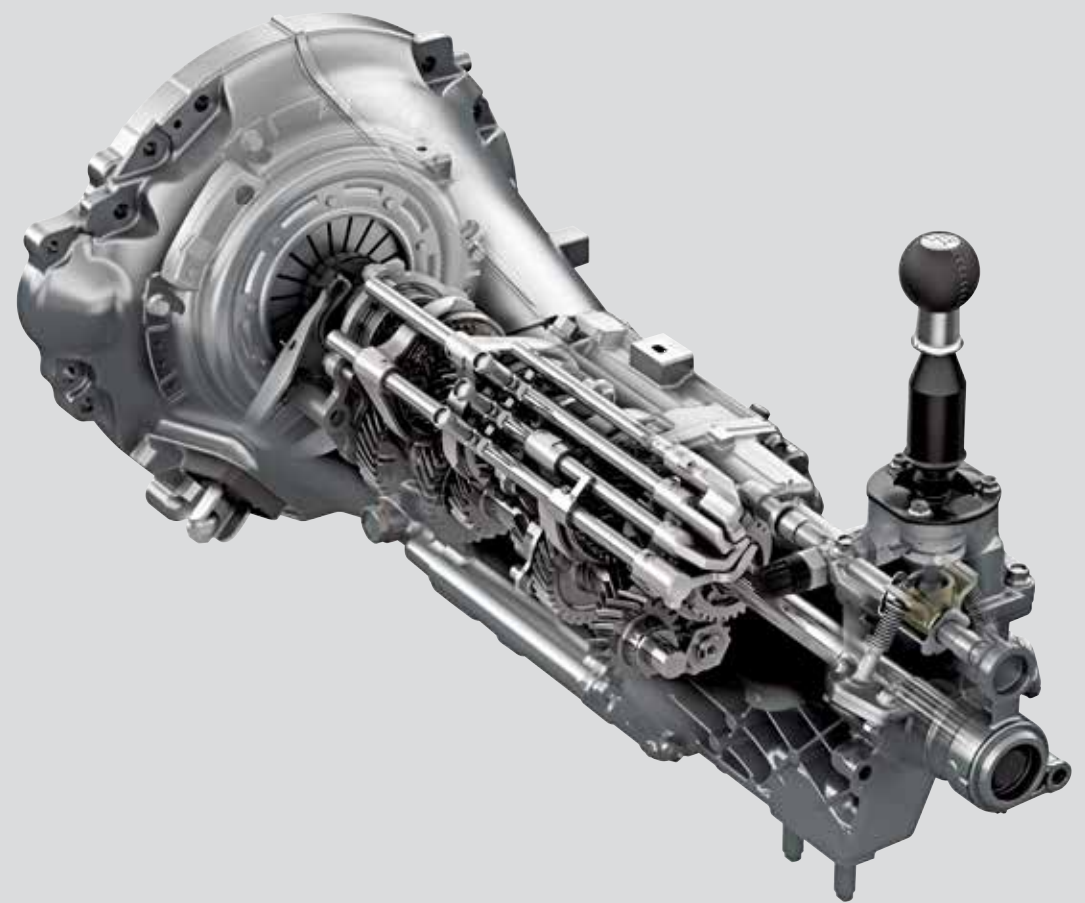

Image shown is for illustration purposes only.

SKYACTIV-G 2.0

SKYACTIV-MT

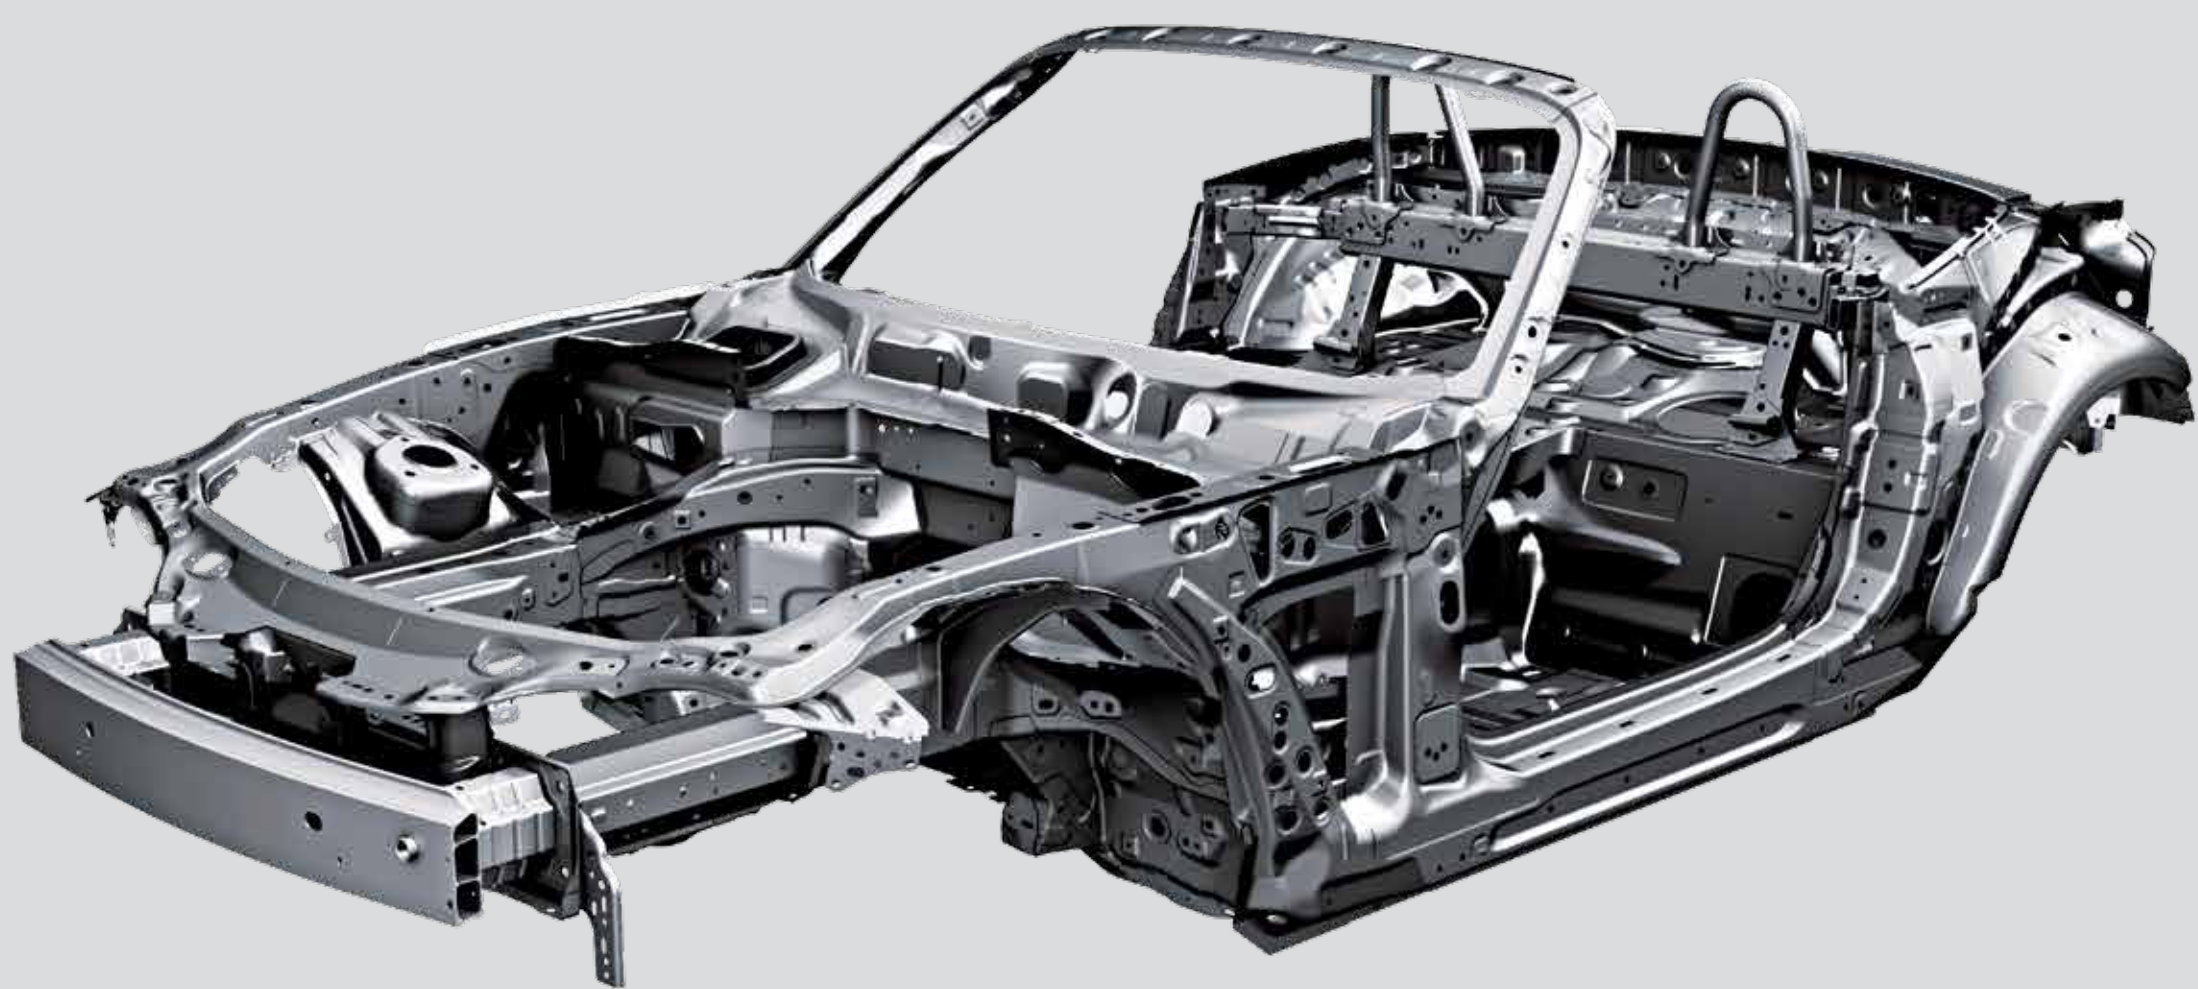

SKYACTIV TECHNOLOGY

SKYACTIV-G 2.0

Delivers higher-revving, higher-power performance with lively response and smooth acceleration. Optimized intake, exhaust, combustion and lightweight components improve output, torque and fuel efficiency, while the engine revs smoothly up to 7,500 rpm with a 13.0:1 compression ratio. A low-inertia dual-mass flywheel and tuned silencer further sharpen engine response and sound, enhancing unity with the MX-5.

SKYACTIV-MT

Delivers the light, positive shifting feel that defines the MX-5. Its redesigned shift mechanism minimizes friction and is optimized for the FR layout, providing crisp, precise shifts with a natural, self-guiding feel. A direct-drive sixth gear also contributes to a lighter, more compact structure.

SKYACTIV-BODY

Combines lower weight with enhanced safety and rigidity, specifically engineered for an open-top lightweight sports car. Straight beams and a continuous framework work together with extensive use of aluminium and high-tensile steel to optimize strength and weight. The result is a lightweight, rigid body that responds precisely to the driver's every intention.

KINEMATIC POSTURE CONTROL (KPC)

Enhances stability and body control during high-G cornering by applying slight braking to the inner rear wheel, utilizing the MX-5's anti-lift suspension characteristics. It suppresses body roll, maintains tire contact and improves confidence through tight corners and rough surfaces. Working in real time without adding weight, KPC progressively adapts to driving conditions while preserving the MX-5's natural, nimble behavior.

ASYMMETRIC LIMITED SLIP DIFFERENTIAL (ASYMMETRIC LSD)

Improves cornering stability by varying differential lockup according to rear-wheel load during acceleration and deceleration. Its asymmetric cam mechanism optimizes lockup, particularly increasing stability during deceleration into corners. The result is smoother, more linear cornering and agile handling across city roads, winding roads and the race track.

DSC-TRACK

Supports circuit driving by allowing controllable understeer and oversteer while remaining inactive during normal driver-controlled situations. When counter-steer indicates the car is approaching an uncontrollable spin, the system intervenes to suppress oversteer and help regain control. Designed as a driver-support function, it enhances confidence while preserving the MX-5's Jinba-ittai sports driving experience.

KEEPING YOU FOCUSED AND IN THE PICTURE

“Clear information keeps you focused on the road.”

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

THE LEADING OF HMI DESIGN

Mazda's Human-Machine Interface (HMI) design organizes driving and infotainment information into dedicated zones, reducing distraction and physical stress. Steering-wheel controls, an 8.8-inch centre display and a conveniently positioned commander control enable intuitive operation with minimal eye movement. The result is clearer information recognition and smoother, safer interaction while driving.

MAZDA CONNECT

Mazda Connect enhances connectivity and safety by bringing smartphone-based infotainment and communication into the vehicle. It provides access to AM/FM radio, Internet radio, streaming services and mobile audio players, while enabling hands-free calls through voice commands.

REASSURING SAFETY, DRIVING ENJOYMENT

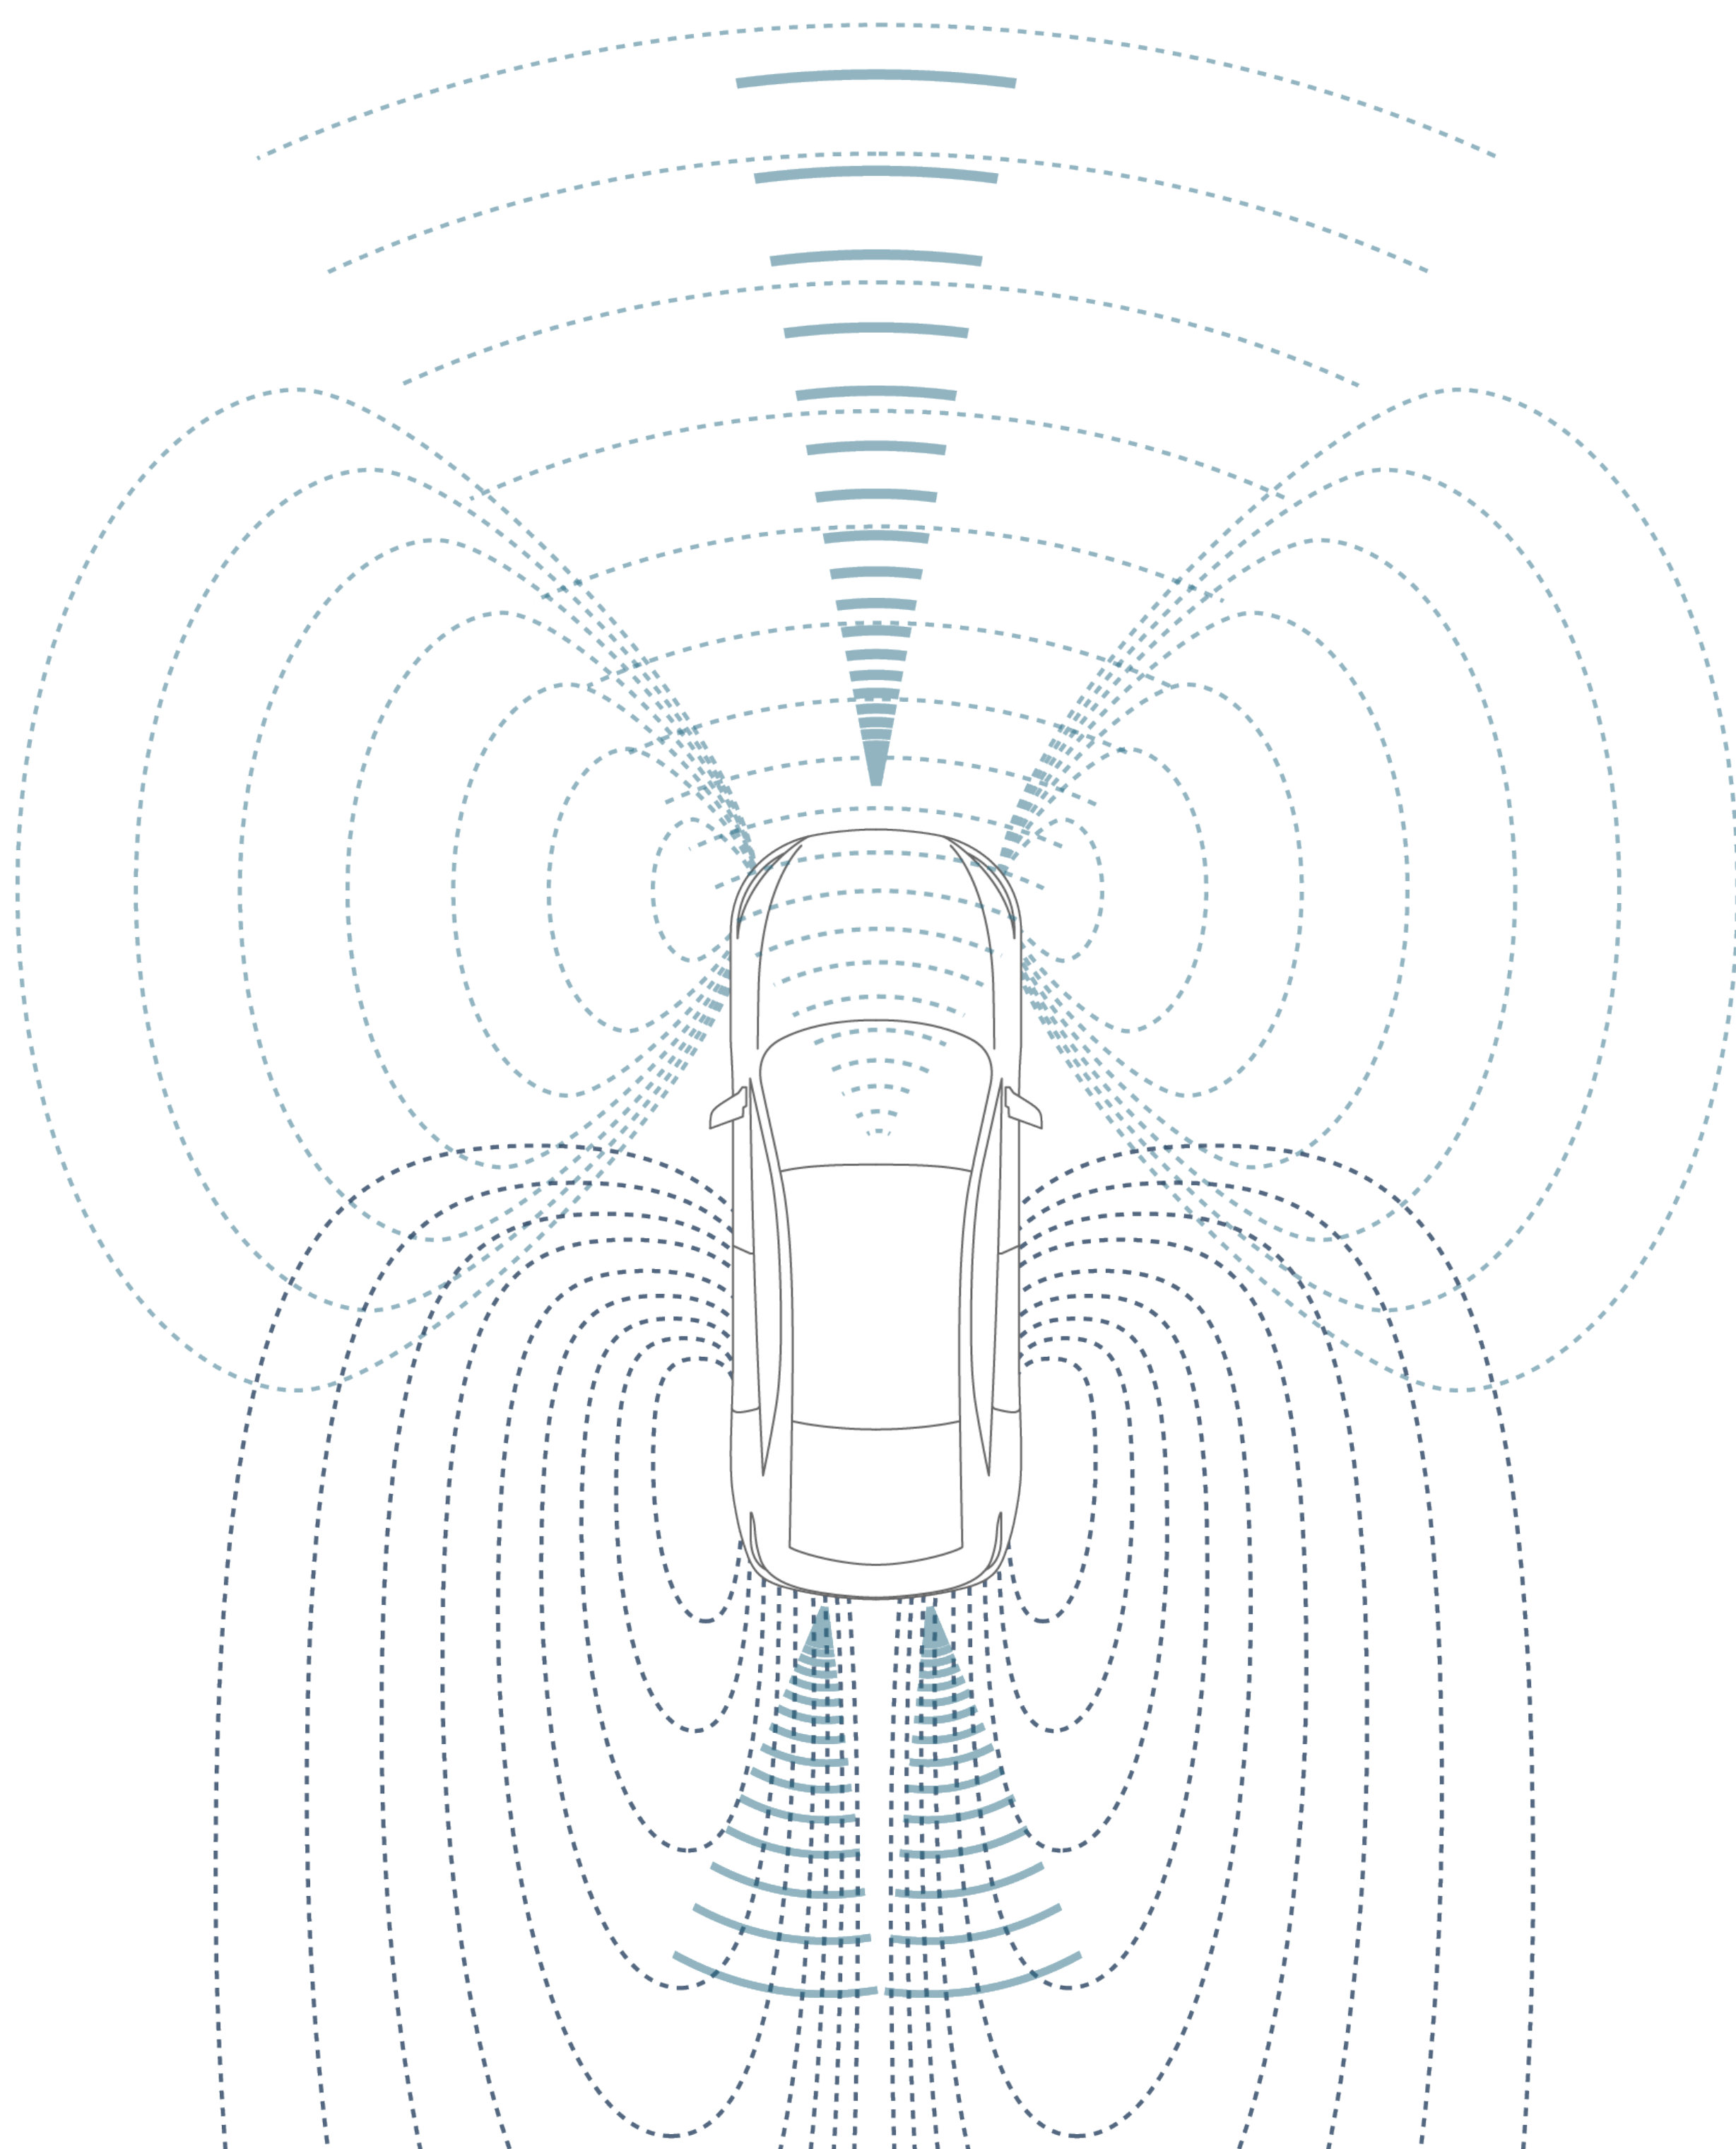

*“Supporting every drive with greater confidence
and peace of mind.”*

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

SAFETY FEATURES

Mazda Proactive Safety combines advanced safety technologies with thoughtful, human-centric design to help you stay aware of your surroundings. Enhanced visibility, intuitive controls, and intelligent driver assistance work together to provide greater confidence, comfort, and peace of mind on every drive.

Note: i-Activsense supports safe driving, but it has limitations and doesn't replace the need for careful attention. The availability of safety features and equipment may vary by market. Consult your Mazda dealer for exact details.

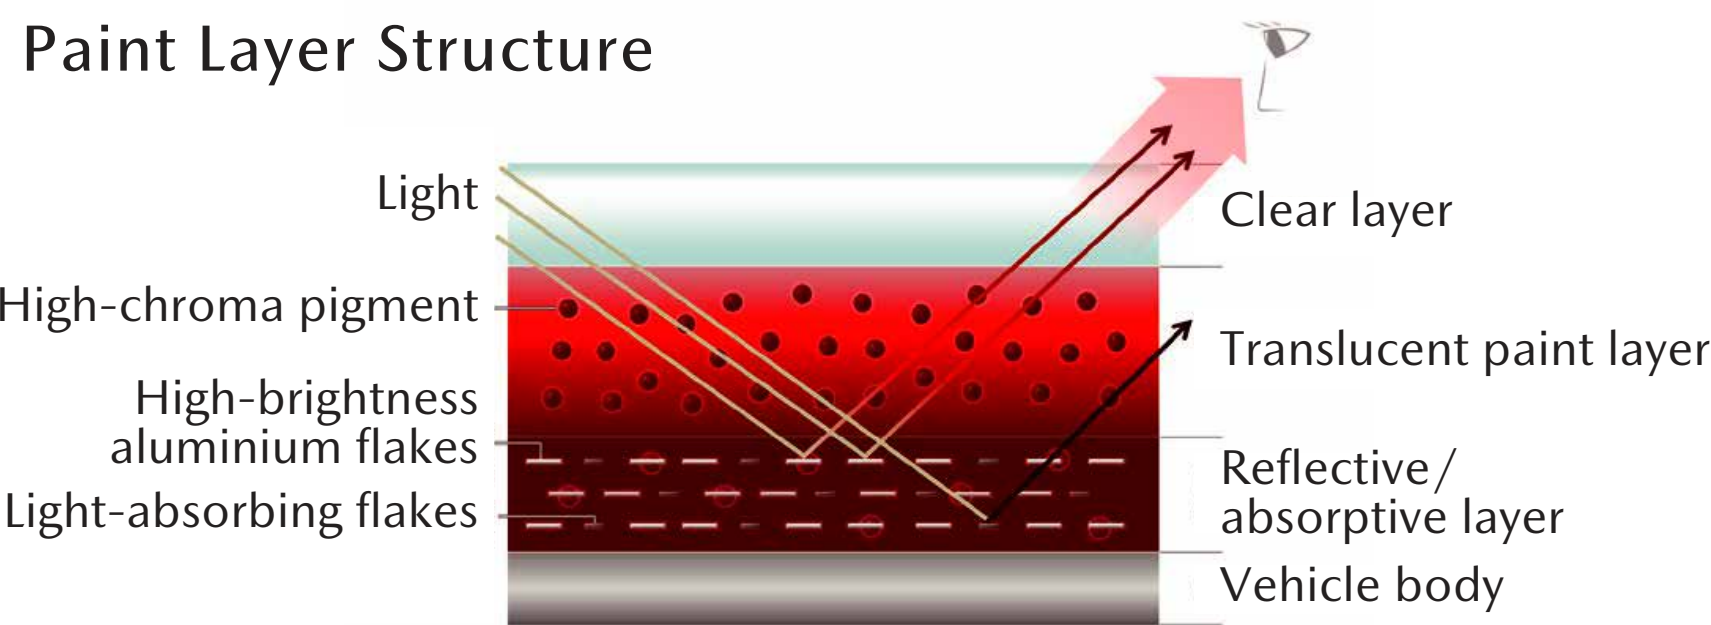

BODY COLOURS & SEAT MATERIALS

“Where precision meets artistry.”

Specifications of models shown may vary by market. Consult your Mazda dealer for exact details.

BODY COLOURS

Paint Layer Structure

TAKUMI-NURI

Mazda’s unique painting technology Takumi-nuri (takumi: artisan, nuri: painting), with its unprecedented combination of colour, highlights, shade, and depth, further emphasizes the sheer beauty and quality of the dynamic body shape.

- Availability of exterior and interior colours varies according to region. Please consult your Mazda dealer for exact information.

EQUIPMENT

The iconic design of the U-shaped rear combination lamps and round tail lights pays tribute to the rear view of previous generations of the MX-5. The light-emitting area of the individual lamps is enlarged for better visibility, especially when braking.

Newly designed, lightweight 17-inch aluminium wheels feature black metallic paint on sharply designed spokes to emphasize their functional beauty and add to MX-5's bold, athletic stance.

The exclusive Bose premium sound system features nine speakers including a pair of speakers in both the driver's and passenger's headrests, to deliver superior sound quality even when driving with the top down.

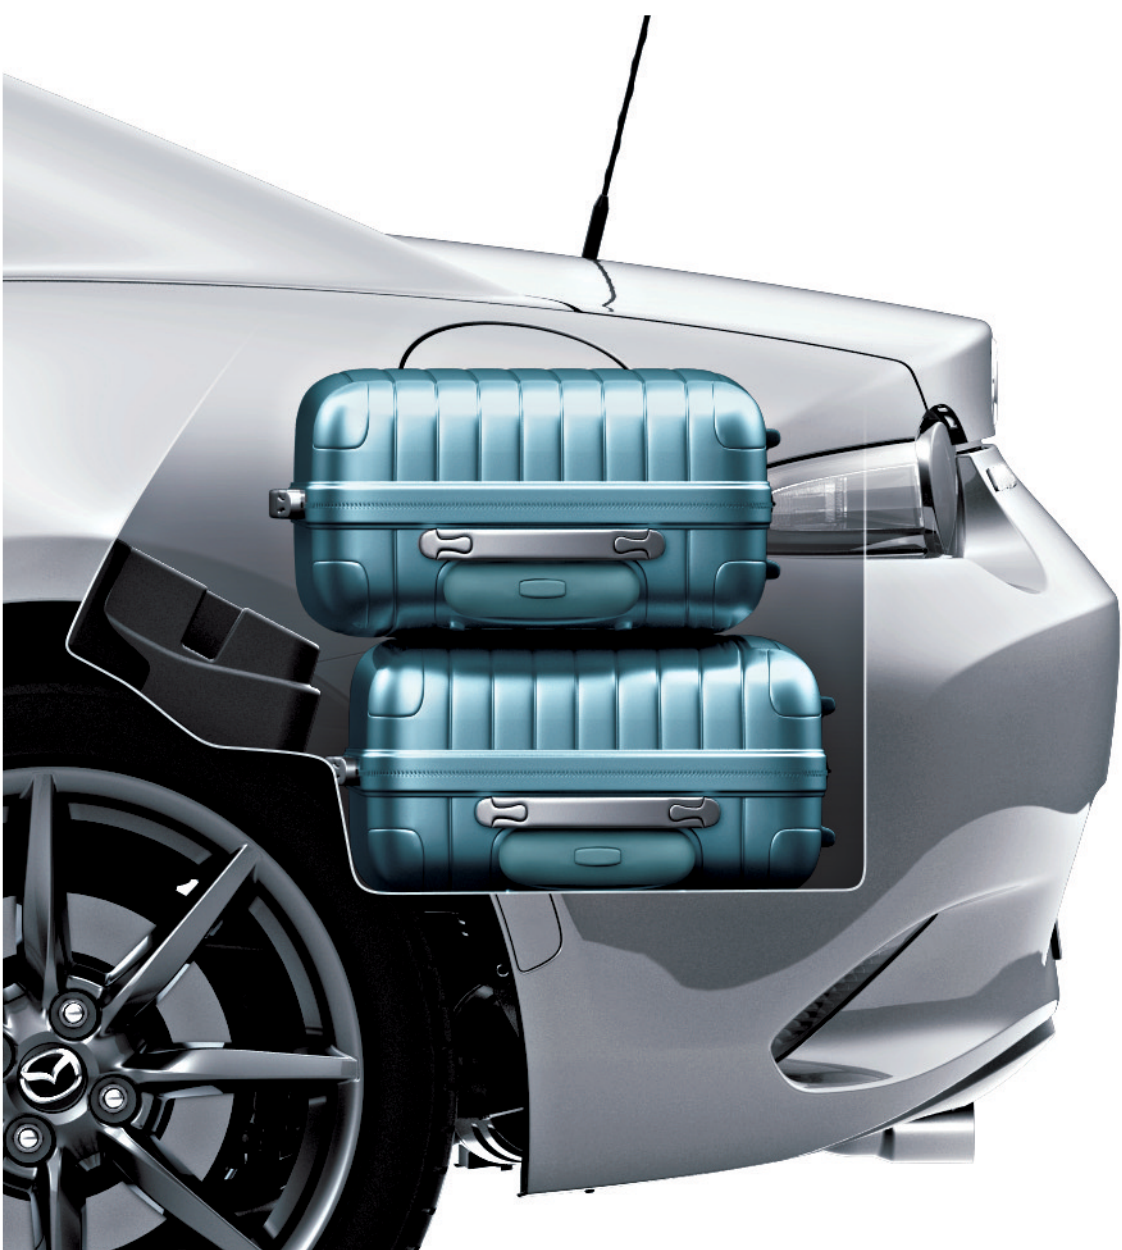

Notes:

- Availability of equipment/features varies according to country and model grade. Please consult your Mazda dealer for exact information.
- Details and specifications of exterior and interior designs of products shown in this catalogue vary by country and model grade. Please consult your Mazda dealer for exact information.

EQUIPMENT

Comprehensive airflow control measures minimize unpleasant draughts while guiding just a refreshing breeze to the occupant's arms and chest to assure the full pleasure of driving with the top down. A large, transparent aero board supports MX-5 RF's body rigidity while maintaining rearward visibility.

Despite the short rear overhang and the space dedicated to stowing the roof, the boot on both models is long and wide giving truly practical use. This versatile luggage compartment can easily accommodate a pair of hard-type carry-on bags, and MX-5 RF's boot even features a multipurpose box for tools and other items.

The power retractable hardtop enables smooth, fast opening and closing at speeds up to 10 km/h with a simple console switch. Its synchronized roof sections stow neatly behind the seats, while a five-step animation confirms operation on the multi-information display.

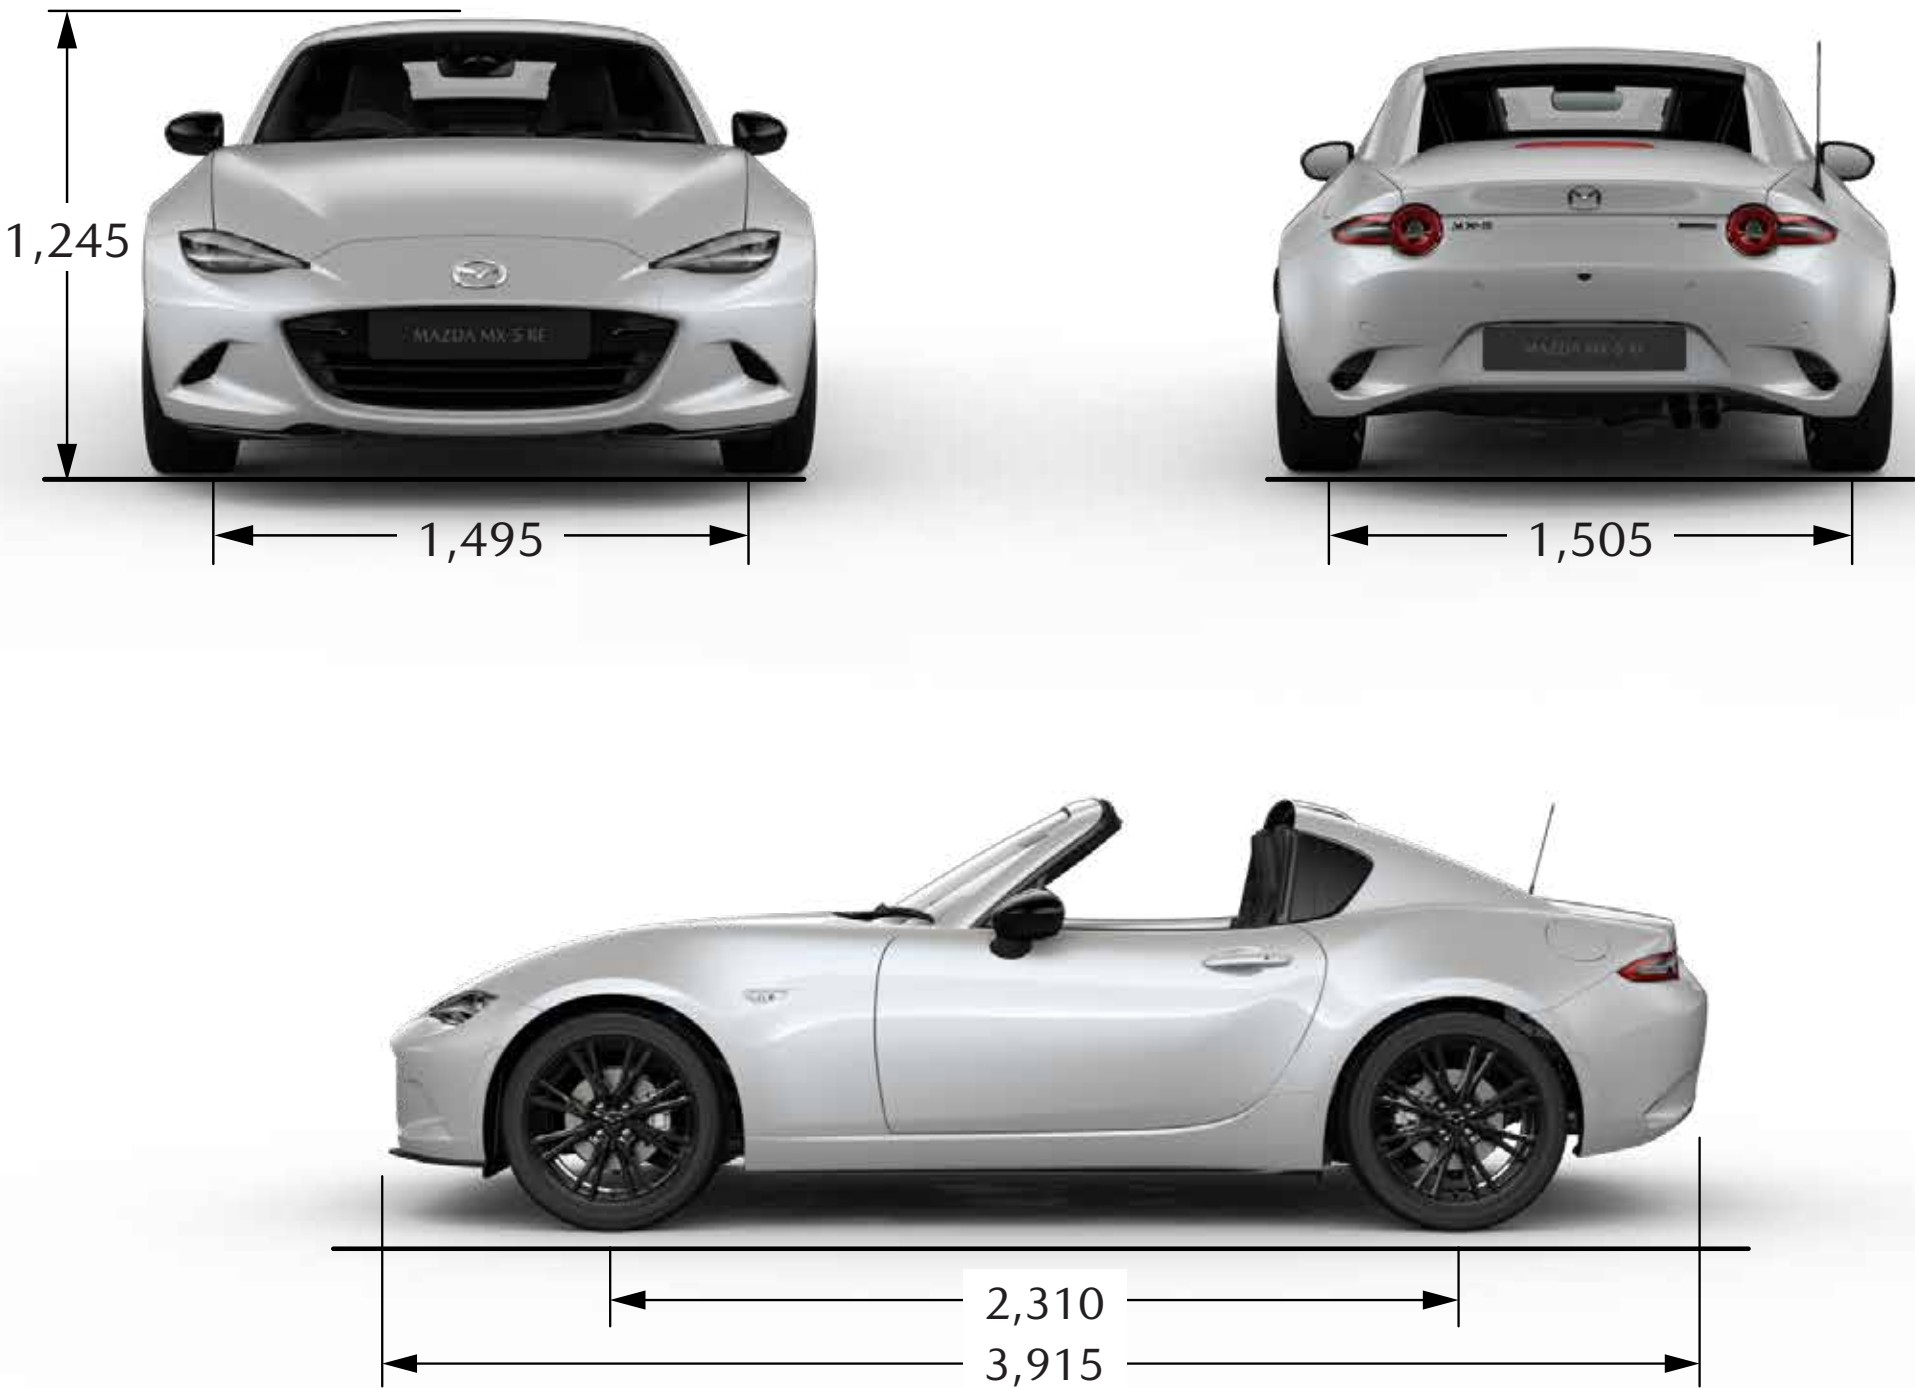

Notes:

- Availability of equipment/features varies according to country and model grade. Please consult your Mazda dealer for exact information.

We believe that a vehicle has something more than just a mode of transportation or a lump of metal. Therefore, we continuously push ourselves in developing SKYACTIV's superior technology and KODO design to achieve this. This is marked by the essence of being one with the car typical of Mazda's Jinba-Ittai.

MYMAZDA WARRANTY & MYMAZDA SERVICE

- Increase driving confidence.
- All Mazda models come with a 5 years or 150,000 km vehicle warranty, whichever comes first, starting from the date of car delivery.
- Mazda ICE models come with a 3 years or 60,000 km service and spare parts package, whichever comes first, starting from the date of car delivery.
- Guarantee of Mazda genuine parts.
- The Emergency Road Assistance (ERA) coverage in the JABODETABEK area is limited to 30 km from the incident location to the nearest authorized dealer. Any assistance required beyond this distance will incur additional costs, which will be the responsibility of the customer.
- The Mazda Owners Club (MOC) card offers special programs hosted by PT Eurokars Motor Indonesia.
